2/14/06 R04-01-025 Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

Summary: On February 8, 2006, Marcie Milner, Director of Regulatory Affairs, Shell Trading Gas & Power, (Shell Trading), met with Belinda Gatti, advisor to Cmmr. Brown, Rami Kahlon, advisor to Cmmr. Peevey, and Robert Lane, advisor to Cmmr. Bohn, in three separate meetings in San Francisco. Also present were Edgar Kuipers, Director, Market Access for Shell NA LNG, LLC, and John Leslie, attorney for Shell Trading. Written materials (attached to the notice) were used. Dr. Kuipers stated that Shell Trading supports Southern California Gas Company's (SoCalGas) and San Diego Gas & Electric Company's (SDG&E) proposed maximum Wobbe limit of 1400 as well as a Wobbe index range of plus or minus 4 percent. Leslie noted that the reasons for proposed 1391 and 1360 Wobbe limit (concerns about the performance of DLN/DLE turbines and increased NOx emissions) are not valid. Leslie explained that California Environmental Quality Act does not apply to the gas quality phase of the proceeding. Milner urged the Commission to act quickly on the gas quality issue in order to provide certainty to Shell Trading and to all other new suppliers that must make facility investment decisions and long-term gas supply commitments.
